

## Providing Lienviet Post Bank's credit rating system

LienVietPost Joint Stock Commercial Bank is a private Vietnamese retail bank providing banking products and services through its own transaction offices across 63 cities and provinces, postal transaction offices. Being in the top 10 biggest private commercial banks in Vietnam in terms of assets and equity, ranking B2 for long term local currency deposit by Moody, LienvietPostBank is trusted by investors and customers as one of the most credible banks in the market.

Moving toward higher productivity requires a powerful platform, and in 2018 LienVietPostBank has decided to partner with Alphaway to successfully create a new internal credit rating system to further increase their lending decision-making process's performance.

By LienViet's requirement, the bank's credit rating system has to handle in-time mass information processing while also being able to provide a comprehensive reporting system with user-friendly tools.

Alphaway has worked with LienVietPostBank in this project. The result sound success has been proven by the bank's 2000 billion VND's profit in 2019, and a credible platform to improve the bank's productivity.
